

Invisio M3 one sided with PTT-button M15 and connector MotoTRBO
The ultimate in-ear tactical headset for high noise and extreme environments

INVISIO M3 featuring INVISIO Bone Conduction Technology, offers unsurpassed comfort and fit for the professional user with a mission critical need to communicate in extreme environments. Utilising a form factor that has been refined over the last decade, INVISIO M3 is the ultimate one-fit-all tactical headset solution.

The INVISIO M15 is a reliable chest mounted Push-To-Talk (PTT) solution for the professional user seeking an easily actuated and reliable PTT button.

An optional protection ring eliminates the risk of accidental PTT button actuation. The INVISIO M15 is made from highly resilient plastic housing making it extremely durable and environmentally protected.
