

TITAN TACTICAL NECKBAND HEADSET

THE TITAN TACTICAL NECKBAND HEADSET

With its low-profile design, minimal weight and comfortable fit, Titan's neckband headset is a perfect choice for challenging environments. Despite its slender frame, this headset has all the technical advantages of heavier sets, and with strong, adjustable ear hook and a flexible incremental neckband, it is designed to fit any wearer perfectly.

The Titan Neckband Headset fits easily under hats and helmets without compromising comfort or usability, and the solid Nexus TP120 connector enables endless combination options for this highly versatile unit. The set comes with a high performance noise cancelling microphone and in-ear quality speakers for optimal comfort and performance.

Part number:
NB-HS-TP120

The Neckband Headset comes with a flexible open ear silicone insert in 3 different sizes for a comfortable fit

Technical data

Microphone	Noise cancelling	Max current consumption	0.5 mA
Sensitivity	-40dB +/- 3dB F=1 KHz = 0dB=1 V/Pa	Frequency	50 ~ 16000 Hz
Standard operating voltage	2.0 V	Storage temperature	-40° C to +85° C
Output impedance	2.2 K Ohm F=1 KHz 1Pa	Operating Temperature	-30° C to +60° C
Max operating voltage	10 V	Sensitivity reduction	-3 dB at 3.0 V to 1.5 V
Complies with	EN 60068-2-32	Protection rating	IP66
