

TITAN TACTICAL NECKBAND HEADSET

Single or dual speakers

THE TITAN TACTICAL NECKBAND HEADSET

With its low-profile design, minimal weight and comfortable fit, Titan's neckband headset is a perfect choice for challenging environments. Despite its slender frame, this headset has all the technical advantages of heavier sets, and with strong, adjustable ear hooks and a flexible incremental neckband, it is designed fit any wearer perfectly.

The Titan neckband headset fits easily under hats and helmets without compromising comfort or usability, and the solid nexus connection enables endless combination options for this highly versatile unit. The set comes with a high performance noise cancelling microphone and optional single or dual in-ear quality speakers for optimal comfort and performance.

Technical data

Microphone directivity	Noise cancelling	Max. current consumption	0.5 mA
Sensitivity	-40 dB ± 3 dB F=1 KHz = 0 dB=1 V/Pa	Frequency	50~16000 Hz
Standard operating voltage	2.0 V	Storage temp.	-25°C to +70°C
Output impedance	2.2 K Ohm F=1 KHz 1Pa	Operating temp.	-20°C to +60°C
Max. operating voltage	10 V	Sensitivity reduction	-3 dB at 3.0 V to 1.5 V
