

## JABRA GN2100 SERIES

LIGHTWEIGHT, STYLISH AND FLEXIBLE

The Jabra GN2100 headset proves that style and performance can seamlessly work together in the contact center or office. The Jabra GN2100 combines advanced Noise Canceling microphone technology, real life durability, and the flexibility to choose your preferred wearing style, all in a lightweight, great looking corded headset.

### LIGHTWEIGHT, COMFORTABLE, AND STYLISH

Jabra's GN2100 headset is the ideal combination of lightweight performance and good looks, featuring an adjustable boom arm and flexible wearing styles. Great design and personalization mean all-day comfort and performance.

### ONE HEADSET, MULTIPLE WEARING OPTIONS

When it comes to comfort, personalization is key. And a headset that isn't comfortable won't stay on your agent's head for long. Jabra's GN2100 headset is available in duo as well as in four different mono wearing styles - headband, behind-the-neck, ear hook, or ear loop. Jabra's GN2100 is an ideal choice for all-day comfort.

### ADVANCED NOISE CANCELING TECHNOLOGY

How your agents sound to your customers impacts how your brand is perceived - so giving your agents the tools to make them and your brand look good is smart business. Jabra's GN2100 series features Noise Canceling microphones that filter out ambient noise so only your agent's voice comes through. The result is crystal clear conversations - and a great customer experience.

### EASY INTEGRATION WITH EXISTING TELECOM SYSTEMS

No matter which phone system you're using, Jabra's GN2100 series headsets will seamlessly integrate into your workflow. With a wide variety of different models available in a variety of wearing styles that feature a Quick Disconnect (QD) connector, the GN2100 is a smart choice no matter what telecom system you are using.

## JABRA GN2100 PRODUCT BENEFITS

### PeakStop™

*Safe sound and superior hearing protection*

PeakStop technology immediately removes potentially harmful loud sounds or tones before they reach your ears and keeps the sound level within the safe range to protect your hearing.

### Talk in Comfort

*Be kind to your ears*

Assure total comfort with a wide range of styles that match your individual needs and personal fit requirements. Our light, ergonomically designed frames along with soft ear cushions, adjustable headbands and microphone boom will guarantee that your headset will be comfortable all day long.

### VARIANT DEPENDENT\*

### HD Voice – Wideband Audio

*High quality audio for crystal clear conversations*

Enjoy high-definition sound with HD Voice and get crystal clear, intelligible communication. You get life-like, vibrant conversations where you can focus on the content and don't have to struggle to understand what the person on the other end of the line is saying.

### Noise Canceling Microphone

*Reduces unwanted background noise*

Noise Canceling microphones reduce unwanted background noise and are ideal in crowded and noisy, open office environments.

### Ultra Noise Canceling Microphone

*Best-in-class Noise Canceling technology*

Ultra Noise Canceling microphones are designed to remove all background noise. They are the ideal choice for crowded and very noisy, open office environments.

### Omni-Directional Microphone

*Picks up the sound of your voice*

Jabra headsets with omni-directional microphones pick up your voice to get life-like natural sounding conversations in environments with low or no background noise.
