TITAN Motorcycle Solutions

Portable radio solution with wired handlebar PTT connected to MM20

TITAN MOTORCYCLE SOLUTIONS

We have developed a full Push-To-Talk system for motorcycle users wanting the optimum hands-free solution whether they are on their bike or at foot.

When on your bike, communicate freely using the Handlebar PTT while having both hands on the steering wheel. The Handlebar PTT has a 3.5mm jack connector, which, when plugged into the RSM, operates as a external PTT-button.

When off your bike, pull the Handlebar 3.5mm jack connector out of your Remote Speaker Microphone and communicate freely using the two PTTs on the MM20.

REMOTE SPEAKER MICROPHONE MM20

Part number: MM20

Part number: MK

Motorcycle System FACTS:

Obvious solution for City Police

Plug and Play

No rechargeable battery needed
